For Immediate Release

March 19, 2008

Abandoned Wells Project

The Iowa Department of Public Health contracts with county environmental health departments to fund the Abandoned Wells Project. Funds from the project help defray the costs of permanently closing abandoned wells and unused cisterns, helping to prevent contamination of groundwater supply and to prevent people or animals from falling into a well.

Anyone wishing to inquire about accessing the funds should contact the Sioux County Engineer:

Doug Julius
207 Central Avenue SE,
Orange City, IA 51041
Phone: (712) 737-2248

For additional questions or concerns please contact:

Community Health Partners of Sioux County
211 Central Ave. SE
Orange City, IA 51041
Phone: (712) 737-2971 or (800) 435-3454
Fax: (712) 737-8101
